## Cover Description

### 耕耘 36 載 傳承未竟的環保使命

#### The Unfinished Mission: 36 Years of Commitment to Environmental Protection

36年前，「環保」對香港人來說仍然是個陌生的概念。1989年，當「綠惜地球」創辦人劉祉鋒（Edwin）毅然轉行投身環保工作時，他形容推動環保有如「揀石仔」，逐步積少成多，無法一蹴而就，而耐力更是不可或缺，因為很多時候，推動一個政策改變要花十多年。他在環保道路留下大大小小的足跡後功成身退，交棒予副總幹事黃子勤，傳承「綠惜地球」的信念與初心。

#### 從走進校園推動回收 到與地產商的博弈

Edwin素來關注環保議題，生活簡樸。1989年，他從報紙看到有環保團體招聘「社區主任」，於是「膽粗粗」應徵。當時活躍於環保的多是外籍人士，他任職的環保團體亦不例外，他一度疑惑為何對方聘請母語為廣東話的他，後來才明白是為了讓環保理念扎根香港社區。九十年代初，他率先走進學校推動廢紙回收，又到公共屋邨推廣設置三色回收桶，及後向政府提出實施「停車熄匙」措施等等。

Edwin翻開過去收藏的剪報，每一篇都記載著他與環保的故事。其中最讓他自豪的，當數廿年前哄動全城的紅灣半島事件。

位於紅磡的紅灣半島原為居屋項目，惟政府其後宣佈停售。2004年，地產商購入該物業並打算清拆，改建為豪宅。Edwin直言：「即使不談環保，單從 common sense 和道德角度，這種浪費已難以接受。」他認為此舉不僅製造大量建築廢料，清拆重建過程再產生更多廢物及碳排放。

但 common sense 往往並不 common，所以他當時與同事朱漢強發起長達一年的抗爭，動員受影響學校發聲，並推動媒體持續關注。身邊人紛紛勸退他，謂「不可能成功」，他卻選擇堅持，在公眾及輿論壓力下，最終迫使地產商於該年底宣布放棄清拆紅灣半島。「要是不能堅持，就等於將僅餘的勝算拱手相讓，注定失敗。」

Thirty-six years ago, environmental protection was still a foreign concept to most people in Hong Kong. In 1989, Edwin Lau Che-feng, the founder of TGE, made a bold career shift to dedicate himself to environmental work. He describes promoting environmental protection as akin to "chipping away at a rock"—a slow, incremental process that cannot be achieved overnight. Endurance, he stresses, is essential, as it often takes over a decade to drive policy changes. After leaving a trail of contributions, both big and small, in the field of environmental protection, Edwin stepped back from the frontlines, passing the torch to Deputy Director Rico Wong Tze-kang to carry forward TGE's mission and original aspirations.

#### From School Recycling Drives to Battling Property Developers

Edwin has always been deeply concerned with environmental issues and has lived a simple lifestyle. In 1989, he came across a newspaper advertisement for a "Community Officer" position at an environmental group. With "audacious courage," he applied and was hired. At the time, most individuals active in Hong Kong's environmental movement were expatriates, and the organisation he joined was no exception. He initially wondered why they would hire someone whose native language was Cantonese, but soon realised their goal was to make environmental concepts take root in Hong Kong's local communities.

In the early 1990s, Edwin pioneered waste paper recycling programmes in schools, promoted the installation of three-colour

recycling bins in public housing estates, and proposed the "idling engine ban" to the government.

Flipping through his collection of old newspaper clippings, each one documenting a chapter of his environmental journey, Edwin highlights the Hung Hom Peninsula incident, a campaign that remains one of his proudest achievements.

The Hung Hom Peninsula estate was originally constructed as a Home Ownership Scheme project, but the government later announced the suspension of its sale. In 2004, property developers acquired the estate and planned to demolish the buildings to redevelop the site into luxury apartments. Edwin recalls, "Even if we don't talk about environmental concerns, this level of wastefulness is unacceptable from the perspectives of common sense and ethics." He pointed out that the demolition would generate a significant amount of construction waste, and the process of rebuilding would produce even more waste and carbon emissions.

But common sense is not so common. Edwin, together with his colleague Hahn Chu, launched a year-long campaign against the demolition. They mobilised affected schools in the area to voice their opinions and engaged the media to sustain public attention. Many people advised Edwin to give up, saying, "It's impossible to win." But Edwin chose to persist. Under mounting public and media pressure, the developer announced by the end of that year that the demolition plans would be scrapped. "If you cannot persist, if you give up halfway, you're destined to fail. Persistence is the only way to maintain even the slimmest chance of success."

## 破浪前行 初心不變

經歷這場博弈後，Edwin 自覺「再大風浪都見過」，卻未料在投身環保的第 26 個年頭，人生和職涯卻面臨另一場巨浪。

Edwin 突然獲機構通知：「我們不再推動政策工作，你的任務已完成。」他帶著震驚與不甘離開：「道不同不相為謀，我作為對環保充滿熱誠、同富經驗的工作者，我認為推動政策是必然的。」

## 58 歲成立「綠惜地球」首年無受薪

Edwin 離開舊機構三個月後，竟在將近 60 歲之齡創立「綠惜地球」。「這年紀白手興家，沒有穩定資金，風險極大。」Edwin 坦言自己當時已非「十八廿二」、充滿魄力的年輕人，加上面前充滿不確定性，成立新機構確實有難度，就連開銀行戶口亦困難重重。

初期團隊僅有三人，為了財政上足夠營運，他首年並沒有支薪，同事亦僅領取微薄薪金。後來「綠惜地球」漸上軌道，辦公室逐步擴充，人手規模亦日益壯大。

當初的擔憂與困難最終一一克服，他深知要繼續在環保領域屹立不倒，必須衝破心理界限。但走得遠的同時，也要適時回到起點，那就是「初心」。他經常提醒自己：「為何投身環保？是否仍懷抱社會使命？」

在他看來，環保工作就是要在變動時代，堅持為環境發聲。過去十年，綠惜地球既推動政策減廢，亦到「三無大廈」進行廢物審計，助居民減廢減費。同時，綠惜地球致力推動山徑可持續發展，舉辦多屆山徑日及成立「自己山徑自己修」義工隊。

如今雖退居二線，Edwin 仍心繫環保，日後在環保路上仍會默默支持。他寄語同路人：「唯有同心協力，才能守護環境，改變未來」。

## Advancing Through Challenges, Staying True to the Mission

Emerging from this struggle, Edwin felt that "no storm could topple" him. Yet, in his 26th year in environmental work, he faced another unexpected challenge.

One day, Edwin was abruptly informed by his organisation, "We are no longer pursuing policy advocacy. Your mission is complete." Shocked and indignant, he left the organisation. "Our visions diverged," he reflects. "As someone with deep passion and extensive experience in environmental protection, I firmly believe that policy advocacy is indispensable."

## Founding TGE at the age of 58, Without a Salary in the First Year

Three months after leaving his previous organisation, Edwin, at nearly 60 years of age, founded TGE. "Starting a new organisation at this age, without stable funding, was an enormous risk," Edwin admits. He was no longer a young man in his twenties, full of vigor and confidence. Faced with overwhelming uncertainties, even opening a bank account for the new organisation proved to be a major challenge.

In the beginning, the team consisted of only three people. To ensure the organisation could remain financially viable, Edwin took no salary during the first year, while his colleagues accepted only modest pay. Over time, TGE gradually gained momentum, with the office expanding and the team growing in size.

The fears and challenges were eventually overcome. Edwin realised that to continue standing firm in the environmental field, he needed to break through his psychological limits. Yet, while moving forward, he often reminded himself to return to his "original aspiration." "Why did I choose to work in environmental protection? Do I still carry a sense of social mission?" he would ask.

For Edwin, environmental work means continuing to speak up for the environment in this era of change, even if these voices are not mainstream. Over the past decade, TGE has been committed to waste reduction, from driving policy recommendations to conducting waste audits in "3 Nil Building", helping residents reduce waste and lower expenses. At the same time, TGE has worked to promote the sustainable development of hiking trails, organising multiple editions of Hong Kong Trails Day and establishing the "Repair Our Trails" volunteer team.

Although Edwin has now stepped back from frontline work, his heart remains tied to environmental protection. He continues to quietly support the cause and leaves his fellow advocates with this message: "Only through unity and collaboration can we protect the environment and change the future."

## 劉祉鋒與黃子勁對談 Edwin and Rico conversation

Edwin：劉祉鋒 Rico：黃子勁

### 1) 你們在甚麼時候相識？

**Rico：**我們從九十年代末開始認識，會在環保團體的會議及聯合行動中不時碰面，2002年，我們曾一同到日本視察當地的焚化爐設施，至今認識超過二十年了。工作以外，我們也會一起「打牌」聯誼。

### 2) 你們對對方的印象如何？

**Rico：**Edwin是一個非常值得尊敬的人，每次開會他都會舉手發言，對環保議題敢於直言。不論是工作還是「打牌」，他都表現得很有耐性，通常會深思熟慮再「做牌」，很少見他衝動出牌。

**Edwin：**就算「輸牌」，我也很享受整個過程，真的很開心。

**Edwin：**我覺得Rico性格正面、謙虛又有親和力，而且願意聆聽別人的意見。在工作上，對待同事或管理機構的態度都很重要，有時候，人品比知識更重要。

### 3) 你期望綠惜地球未來的發展如何？

**Rico：**我認為首先要承先啟後。綠惜地球在過去十年已確立鮮明的形象，我希望未來也承傳這種方式。但隨著時勢改變，我們可能需要穩中求變。我相信團隊會共同參與及互相包容，決定哪一種做法可以為環境帶來最好的影響。

**Edwin：**我相信未來的路會比我在2016年創會時更具挑戰。我希望團隊能緊記初心，懷着無比的毅力

### 1) When did you first know each other?

**Rico:** We've known each other since the late 1990s, as we regularly met at green group meetings and joint initiatives. In 2002, we travelled to Japan together to explore their incineration technology. It's been over 20 years now. Outside of work, we also bond by playing mahjong together.

### 2) What is your impression of each other?

**Rico:** Edwin is someone I deeply respect. In meetings, he always raises his hand to speak up and is vocal about environmental issues. Whether at work or when playing mahjong, he is patient, takes time to carefully think through his decisions, and rarely acts impulsively.

**Edwin:** Even if I lose at mahjong, I still enjoy the process—it's truly a joyful experience.

**Edwin:** Rico is a positive, humble and approachable person. He is always willing to listen to others' opinions. In the workplace, attitude is crucial when working with colleagues and managing the organisation. Sometimes, I feel that a person's character is even more important than his knowledge.

### 3) What future development do you hope for TGE?

**Rico:** I believe we must build on the foundation of past achievements while continuing to move forward. Over the last decade, TGE has established a strong and recognisable image, and I hope we can carry on in this direction. However, as times change, we may also need to adapt while maintaining stability. I trust that the team will work together collaboratively and inclusively to identify the most effective approaches to benefit the environment.

**Edwin:** The road ahead could be more challenging than when I founded the organisation in 2016. My hope is that the team will stay true to their original aspirations, maintain extraordinary perseverance and endurance, and approach challenges with optimism and positivity. Together, they can face difficulties head-on and continue to be a voice for our fragile planet.

# 綠惜地球

# 10

年里程碑

**2016**

**February 2月**

The Green Earth was established.  
綠惜地球在2月成立

**2018**

The Hong Kong Gun Club was exposed for failing to properly dispose of spent lead bullets and sporting clays, resulting in contamination of country parks and water catchment areas.  
揭發香港槍會未有妥善處理大量射擊後遺留的鉛彈和飛靶，污染郊野公園及集水區

**2017**

Held press conference on the plastic bottle crisis, prompting the government to explore a producer responsibility scheme for plastic beverage containers.  
Initiated the Green Bottle Pledge to encourage reuse and garnered support from over 60 organisations.  
舉行記者會揭示膠樽災難，政府承諾探討將塑膠飲品容器引入生產者責任計劃。  
推動綠瓶子承諾，鼓勵重用，獲60多個機構響應支持

**2019**

Organised the first "Hong Kong Trails Day" to promote conservation and care for trails.  
舉辦第一屆「香港山徑日」，推廣保育及愛惜山徑訊息

**2020**

Launched the "Events Go Green programme", providing recycling support for charitable and non-profit events.  
Successfully intercepted over 100 containers loaded with 3,000 tonnes copper scrap sticking in Hong Kong.  
開展「綠惜活動減廢同行」計劃，為慈善及非牟利活動提供回收支援等。  
成功阻截載逾100個載有3000噸廢銅渣的貨櫃滯留香港

**2021**

Organised petitions, public surveys, and campaigns with green groups to rally public support for a one-dollar deposit return scheme for disposable beverage containers during the public consultation.  
連同其他環團以聯署、民調、創意宣傳，獲數以千計公眾響應參與政府公眾諮詢，支持「按金至少一元」

**2022**

Launched Green Hero Challenge 2022, combining mountain clean-ups, waste surveys, and competitive charity activities. Arguably the most extensive survey on trail litter in Hong Kong ever.  
發起「惜山競走2022」，集淨山、廢物調查及競賽慈善活動於一身，相信是本港最長里數的山徑垃圾調查

**2023**

Collaborated with the Hong Kong University of Science and Technology and Arup to simulate the impact of light pollution in mixed commercial and residential areas. Findings were published in international journals.  
Successfully advocated for paper-based beverage cartons to be included in the Beverage Container Producer Responsibility Scheme.  
與香港科技大學、奧雅納工程顧問合作，針對香港商住混合下如何模擬計算出光害影響，有關成果在國際期刊發布。  
成功爭取紙包飲品盒納入「飲品容器生產者責任計劃」

**2024**

Published the findings on Corporate Carbon Neutrality Follow-up and Buildings Energy Efficiency Investigation.  
Published "The Unseen Trails", the first-ever book in Hong Kong focusing on sustainable trails.  
發布《企業碳中和跟進調查》和香港《建築物能源效益調查》結果。  
出版本地首本以探討「可持續山徑」為主題的著作——《看不見的山徑——香港可持續山徑之初探》

**2025**

Market study exposed the continued sale of banned oxo-degradable plastic products, prompting the retailers to take down all illegal products.  
Hosted the "Whispers of the Forest" Leave No Trace exhibition to promote sustainable trail practices.  
揭示市面仍售賣已禁售的可降解塑膠產品。  
舉辦《山林密語》無痕山林環保展覽

## 促成改變 Driving Change

### 氧化式可降解塑膠全面淘汰

#### Oxo-degradable plastics to be phased out

氧化式可降解塑膠聲稱環保，但只會分裂成微塑膠，產生污染，故已全面禁止。本會調查揭發市面疑有商戶違規售賣，環保署旋即提醒商戶下架，並加強網站解說。

Oxo-degradable plastics claim to be environmentally friendly, but they only fragment into microplastics, causing pollution, and have therefore been completely banned. The Green Earth (TGE) found some shops were still selling these banned plastics, prompting the Environmental Protection Department to immediately remind merchants to remove them from shelves and strengthen explanations on its website.

### 綠在區區

#### Green@Community

本會發現綠在區區擬全面以商戶電子積分取代實體禮品，容易對長者造成數碼障礙。環保署其後保留實體禮品兌換，便利市民。

TGE found that the GREEN@COMMUNITY plan to replace physical gifts with electronic merchant points, which may cause digital barriers for the elderly. The Environmental Protection Department subsequently retained the physical gift redemption to facilitate public participation.

### 生態旅遊

#### Ecotourism

本會促請政府發展生態旅遊時，應考慮自然承載力。當局已考慮暫停的士駛入東壩，避免交通擠塞。

TGE urges that when developing eco-tourism, the natural carrying capacity should be considered. The authorities have considered suspending taxis from entering the East Dam to avoid traffic congestion.

## Chairperson's Message

2024年「又是破紀錄最熱的一年」！世界氣象組織更於今年五月廿八日發佈的最新氣候報告中指出，未來五年內大概會再破紀錄。過去一年，香港亦深受極端天氣影響：夏天異常酷熱，而今年八月五日的暴雨錄得 368.9 毫米雨量，創下自 1884 年有紀錄以來八月份單日雨量新高。這一天的降雨量已相當於八月份正常雨量的八成以上。此外，今年天文台已經發出五次黑色暴雨警告，打破以往單一年內最多三次（2000年及2006年）的紀錄。這些極端天氣現象提醒我們，氣候變化正在加劇，我們必須加快減碳步伐，推動更有力的氣候行動。

過去一年，綠惜地球持續關注本地減碳工作。我們發現香港十大商場的節能表現參差，部分仍有很大進步空間，更有 156 幢商業樓宇在能源效益守則的審核下用電量不減反增，與節能減碳的大趨勢仍有差距。我們的調查亦發現，部分政府合署在近五年的用電量有所上升。若能進一步提升數據透明度，讓公眾清楚了解不同建築物的能源表現，不僅有助社會監察和建立信任，也能讓各界從中學習，共同提升公共建築的節能效果。

同時，香港近年正逐步減少化石燃料在發電中的比例，並開始規劃在香港發展綠色燃料加注設施。而作為國際航空樞紐，香港仍需要把握機遇，配合國際海事組織即將採納的減碳框架，積極推動綠色燃料的應用，才能在替代燃料發展上領先。這些都是邁向2050碳中和的重要步伐。然而，我們必要加快腳步，讓香港在「國際綠色港口」以及「綠色金融中心」兩方面發揮領先優勢。

除了節能減碳的工作外，綠惜地球在過去一年也不停推動減廢工作。團隊在推動「綠惜盛事」計劃之餘，更發展專業的「綠惜盛事認證」計劃，把盛事的減廢工作系統化和規範化，使其更鮮明和更具認受性。去年夏天，綠惜地球更受內地邀請，到北京和物業管理業界分享香港垃圾收費制度出台的背景和挑戰。雖然垃圾收費的實施時間有所調整，綠惜地球仍積極推出「減廢約章」，吸引了不少企業、大學和團體支持延續減廢的動力，並期望在政策落實前持續凝聚社會力量。團隊亦夥同企業推動大型全民減廢活動，讓市民和商戶一同參與。我們也期望政府能在相關措施上持續帶頭示範，並透過先行先試，為日後政策落實奠下基礎。

在推動生產者責任方面，團隊自 2023 年尾開始就著塑膠飲品容器及紙包飲品盒生產者責任計劃不斷和包括環保署在內的持份者溝通，並借鑑不同城市成功的先例和本會早年在香港試行具誘因的 PET 膠樽回收經驗，希望政府推出兼具務實及減廢效果的附屬法例。這不只可以讓全民一起參與回收減廢工作，也可以為日後其他附屬法例建立榜樣。

另一件令人引以為傲的事情，是為期三年、由賽馬會資助的「入山隨俗」教育計劃已圓滿結束。過去三年間，綠惜地球推行行山禮儀、山徑不留痕和可持續山徑復修等教育及保育工作，與市民同行。今年六月至七月間，我們舉行一個大規模的環保和教育展覽，吸引了過萬名市民參加，讓「入山隨俗」的理念漸入民心。而一年一度的「綠惜夜行」也在今年二月順利舉行，吸引超過五百名參加者，把「入山隨俗」、「綠惜盛事」等元素，在市民眼前呈現。

默默耕耘不言倦，團隊在光污染議題上也沒有怠慢。值得欣慰的是，漁護署已採納本會和海洋光污染關注組的意見，落實資助漁戶轉用合規光燈，令晚上漁燈的光污染大大減低，保護海洋生態。

綠惜地球在過去九年多有驕人的工作成果，全賴團隊的努力和各界慷慨支持。適逢機構踏入十週年，我們也迎來重要的承傳時刻。帶領團隊近十年的創辦人及總幹事劉祉鋒（Edwin）於八月底正式卸任，雖然他不再擔任全職工作，但仍會以創辦人的身份支持機構。我謹代表董事會及全體同工，感謝Edwin多年來專業領導、盡心竭力，令團隊在短短數年間獲得香港各持份者信任。

在承傳的同時，我們亦很高興迎來新一任總幹事黃子勁博士（Rico Wong）。Rico過去兩年在綠惜地球已展現出專業素養，以及對環境的深切熱愛和尊重。他積極推動減碳、減廢及環境教育工作，深獲團隊和合作夥伴的信任與肯定。我們相信，他將帶領團隊繼續秉持專業和使命感，並開創新局面，讓機構在未來十年能更進一步，回應氣候挑戰和塑膠危機，凝聚更多社會力量共建可持續的香港。

此外，我也想借此機會感謝陳廷驊基金會多年來對本會的支持，讓我們成長。最後，我必須再次衷心感謝過去一年支持我們的市民、義工、企業朋友、政府部門、學校、專家團隊、各贊助單位，以及綠惜地球的董事和同事。大家都說 2026 年滿載挑戰，但我懷着信心，借你們的手扶我們一把，讓我們手牽手一起落實香港的可持續發展。

2024 is on track to be another record-shattering hottest year! The World Meteorological Organization's latest climate update, released on May 28 this year, warns of an 80% chance that at least one annual global heat record will be broken within the next five years. Hong Kong, too, has been hammered by extreme weather over the past year: a blisteringly hot summer, followed by torrential downpours on August 5 that unleashed 368.9 millimeters of rain—the highest single-day August total since records began in 1884, equivalent to over 80% of the month's average rainfall. Compounding this, the Hong Kong Observatory has issued five Black Rainstorm Warnings this year, surpassing the previous record of three in a single year (set in 2000 and 2006). These extreme weather events are a stark wake-up call to the accelerating impacts of climate change. We must act urgently to redouble our carbon reduction efforts and drive more ambitious climate actions.

Over the past year, The Green Earth (TGE) has continued to focus on local carbon reduction efforts. Our research revealed that the energy-saving performance of Hong Kong's top ten shopping malls varied widely, with some showing significant room for improvement. Furthermore, 156 commercial buildings, despite being audited under the Buildings Energy Efficiency Ordinance, recorded increases in electricity consumption, indicating a gap between current practices and the broader goal of energy conservation. Our survey further uncovered rising electricity use in several joint government offices over the last five years. Enhanced data transparency would empower the public to better gauge building energy performance, enable effective monitoring, and foster trust. Ultimately, it would spur cross-sector collaboration to elevate energy efficiency across public buildings.

Meanwhile, Hong Kong has been steadily reducing the proportion of fossil fuels in its power generation mix in recent years while advancing green fuel bunkering infrastructure. As a premier international shipping hub, the city must seize emerging opportunities by actively promoting the adoption of green fuels—aligned with the International Maritime Organization's carbon reduction framework—and lead the transition to alternative marine fuels. These measures are essential steps toward carbon neutrality by 2050. We must accelerate efforts to leverage Hong Kong's competitive edges as an International Green Port and Green Finance Centre.

In addition to energy conservation and carbon reduction, TGE has been a tireless advocate for waste reduction continuously over the past year. Alongside promoting the Green Events Certification Scheme, which standardises and systematises waste reduction at large-scale events, TGE was invited last summer share insights with the property management industry on the background and challenges of Hong Kong's waste charging scheme in Beijing. By raising awareness of the challenges of advancing waste charging in Hong Kong, we hope that other cities will be able to formulate plans to address potential issues and implement all the necessary measures for a successful rollout. Despite the government's decision to postpone the introduction of waste charging last year, TGE launched the Waste Reduction Pledge to maintain momentum for waste reduction and has received widespread support from businesses, universities and organisations. We have also partnered with businesses to promote large-scale waste reduction campaigns, enabling citizens and businesses to collaborate on such initiatives. We hope the government will continue to lead by example to initiate effective waste reduction measures and lay the groundwork for future policy

implementation through pilot projects. Since the end of 2023, TGE has been actively engaging with stakeholders, including the Environmental Protection Department, regarding producer responsibility schemes (PRS) for plastic beverage containers and cartons. Drawing on successful examples from other cities and our own experience with incentive-based PET plastic bottle recycling in Hong Kong, we urge the government to introduce practical and effective PRS legislation. This would not only empower the public to participate in recycling and waste reduction initiatives but also establish a benchmark for future legislation.

Another proud achievement is the successful completion of the three-year 'Leave No Trace' education programme, funded by the Hong Kong Jockey Club. Over the past three years, TGE has promoted hiking etiquette and the Leave No Trace principles, and sustainable trail restoration. In addition to promoting these messages on Hong Kong Trails Day and via various educational channels, we hosted a large-scale environmental education exhibition from June to July this year, which attracted thousands of visitors. The exhibition helped to raise awareness of the Leave No Trace concept among the public. Over five hundred participants joined our annual Night Walk in February, where we demonstrated elements such as Leave No Trace and Green Events.

The team has also worked tirelessly on the issue of light pollution. The Agriculture, Fisheries and Conservation Department adopted TGE's recommendations, alongside those of the Marine Light Pollution Concern Group, to subsidise fishermen to switch to compliant lighting. This measure significantly reduces light pollution caused by fishing lights at night and helps to protect the marine ecosystem.

TGE's remarkable achievements over the past nine years are a testament to the dedication of our team and the generous support of all sectors. As the organisation celebrates its tenth anniversary, we mark an important moment of transition. After nearly a decade of leadership, founder and Executive Director Edwin Lau Che-feng officially retired at the end of August. Although he will no longer hold a full-time role, he will continue to support TGE as its founder. On behalf of the board of directors and the entire team, I extend my heartfelt thanks to Edwin for his visionary leadership and tireless dedication, which helped establish TGE as a trusted environmental organisation in Hong Kong.

While continuing to carry forward the legacy, we are delighted to welcome our new Executive Director, Dr. Rico Wong. Over the past two years, Rico has demonstrated exceptional professional expertise and a deep commitment to the environment, driving initiatives in decarbonisation, waste reduction and environmental education. His efforts have earned the trust and recognition of the team and partners alike. We are confident that Rico will lead TGE to new heights over the next decade, responding to climate challenges and the plastic waste crisis while uniting more social forces to create a sustainable Hong Kong.

Furthermore, I would like to thank the D. H. Chen Foundation for their longstanding support, as well as the citizens, volunteers, corporate partners, government departments, schools, expert teams, sponsors, board members, and colleagues who have stood by us over the past year. Although 2026 will be full of challenges, I remain optimistic. Let's join hands to build a more sustainable Hong Kong.

# 願景 Vision

人人樂於履行綠色公民責任，為當下及未來的世代，促進可持續的生活環境。

Everyone in our community will embrace green citizen responsibilities to help establish a sustainable living environment for this and future generations.

本地註冊慈善團體「綠惜地球」於2016年成立。本會積極協助社會各界將可持續發展及低碳的關顧投入在生活中。

The Green Earth (TGE) was established in 2016 as a local registered charitable organisation. We proactively connect various sectors to incorporate sustainable development and low-carbon initiatives into our daily lives

# 使命 Mission

透過教育、動員公眾，致力：  
Through public education and community mobilisation:

- 激發社會的綠色正能量  
Facilitating action by igniting green energy throughout our community
- 倡導珍惜資源、零浪費的文化  
Promoting resource conservation and a zero-waste culture by changing attitudes
- 推動香港成為人人引以自豪的綠色城市  
Turning Hong Kong into a healthy, green city

## 簡介 Blurb

綠惜地球是本地慈善組織，致力於推動香港成為一個健康及可持續發展的城市，與政府、企業和市民合作，透過推廣環保政策、建立企業夥伴關係和綠惜公民教育，為真正可持續發展模式做出貢獻。

TGE is a local charitable organisation dedicated to driving Hong Kong into a healthy and sustainable city by working together with the Government, businesses and individuals to contribute our efforts towards a truly sustainable mode of development, through promoting sustainable policy, corporate partnership and green civic education as well as participation.

Sustainable Policy Research & Development

## 氧化可降解塑膠禁制一年仍有售 環保署承諾加強解說

Oxo-degradable plastics still on sale despite year-old ban —  
EPD vows to enhance public awareness

本會在 3 月到市面巡查，發現逾 70 間商戶及網購平台疑售賣含違規成分的塑膠，如垃圾袋、寵物糞便袋、食物袋等。調查獲 9 間媒體報道後，商戶旋即將有問題的產品下架，環保署亦隨即更新「截塑」網站對違規塑膠的解說，並通知逾千間寵物用品店留意產品成分。

In March, The Green Earth (TGE) conducted market inspections and identified over 70 vendors and e-commerce platforms suspected of selling plastic products containing non-compliant additives, such as garbage bags, pet waste bags, and food bags. Following reports by nine media outlets, the merchants swiftly removed the problematic products from their shelves. In response, the Environmental Protection Department promptly updated the “Plastic Interception” website to provide clearer explanations and notified over 1,000 pet supply stores to review the composition of their products.

氧化可降解塑膠在遇氧後會分解成微塑膠，對生態環境構成嚴重破壞。  
Oxo-degradable plastics break down into microplastics when exposed to oxygen, causing severe harm to ecosystems.

## 「綠綠賞」電子化 拾荒長者面對的數碼鴻溝 Digitalisation of GREEN\$ programme may reduce elderly people's willingness to recycle

政府宣布明年初將鼓勵市民回收的「綠綠賞」計劃全面電子化，停止兌換實體禮品，改為兌換成「易賞錢」等積分。本會於今年 7 月追查發現，有部分拾荒長者不擅長使用智能手機，電子化後或會造成數碼鴻溝問題，減低他們回收誘因。另外，電子化後兌換設限制，高積分帳戶將難以短期內兌換完所有分數。

本會歡迎環保署對我們建議實施的「雙軌並行」持開放態度，保留兌換實體禮品安排，以維持市民回收的熱忱。

The government announced that "GREEN\$" will be fully digitised at the beginning of next year, meaning the public will not be able to redeem physical gifts. TGE discovered that some elderly waste collectors have difficulties using smartphones and may have fewer incentives to recycle. Also, there is a monthly redemption limit. TGE welcomes the EPD's openness to our suggestions: retaining arrangements for redeeming gifts to maintain public enthusiasm for recycling.

## 政府建築及各商場節能表現參差 綠惜地球倡全面落實節能措施

Government buildings are “mediocre” in energy saving.  
TGE urged authorities to fully implement energy management opportunities

本會於去年底及今年初，分別發現政府合署及本港各商場的用電量大增，獲媒體廣泛報道。七幢政府合署的用電量較五年前增逾一成，以致電費開支飛漲，部分更要機電署提醒調節室內溫度，反映以電費促節能的策略未必奏效。綠惜地球建議由機電署和環能局督導政府節能，而政府建築物亦須全面實行「能源管理機會」。

本會亦發現香港十大商場節能表現尚可，惟全港 156 幢商業樓宇用電量增加。現時法例容許大樓用電量有增無減，以致能源審核形同虛設。政府宜修例要求這些樓宇的業主解釋，並提交節能計劃。

At the end of last year and the beginning of this year, TGE discovered that electricity consumption in government buildings and local shopping malls had increased significantly, which received widespread media coverage. Seven government buildings recorded electricity usage over 10% higher than five years ago, leading to soaring electricity bills. Some buildings even received reminders from the EMSD to adjust indoor temperatures, reflecting that relying on electricity costs as a strategy to promote energy saving may not be effective. TGE recommends that the EMSD and the EEB jointly supervise energy-saving efforts across all government departments, and that government buildings fully implement “Energy Management Opportunities.”

TGE also found that Hong Kong’s top 10 shopping centres performed satisfactorily in energy saving, but electricity consumption increased in 156 commercial buildings. Current laws allow buildings to use more electricity without consequence, rendering energy audits meaningless. The government should amend the law to require building owners to account for their energy consumption and submit plans to improve their energy efficiency.

有關研究受七大傳媒關注及報道，更刊登於明報頭版，為修例製造推動力量

The research received coverage from seven major media outlets and was prominently featured on Ming Pao’s front page, creating momentum for legislative amendments.

## 綠惜地球獲邀赴京參與 「2024 中國國際物業管理產業博覽會」論壇

TGE was invited to participate in the 2024 China International Property Management Industry Expo Forum

本會向內地物管與韓國環保團體介紹香港減廢政策的發展，並討論各地減廢措施。訪京期間走訪大小屋苑、胡同和商業樓宇，實地視察北京「強制垃圾分類」的實施情況。

TGE introduced the development of Hong Kong’s waste reduction policies to the mainland property management industry and Korean environmental groups, and discussed waste reduction measures in different regions. During the visit to Beijing, TGE colleagues visited various housing estates, hutongs (traditional alleys) and commercial buildings to observe the implementation of the “Mandatory Waste Separation programme”.

綠惜公民教育  
Green Public Education

## 植林優化計劃 / 綠惜樹林認養計劃

### Plantation Enrichment Programme / The Green Earth (TGE) Charity Woodland

改善本地植林一直是綠惜地球的重要工作，本會第九年參與漁農自然護理署「植林優化計劃」，感謝香港中華煤氣有限公司贊助，支持我們於大欖郊野公園為新植樹場進行植樹及護林等工作。

本年度的植樹季節較少降雨，為了令樹苗種下後有足夠水份，每次植樹必須準備更多澆灌用水，感謝每位參加者為小樹苗負重帶來一瓶「生命之源」作灌溉。幸而新植樹場旁附送長年流動的小溪可作為樹苗的水源，為植樹工作添上甘露。

過去的植樹季節，我們與一眾義工於六個植樹場種下 2600 棵樹苗，當中包括今年新設的綠惜樹林——「溪畔小丘」！感謝本年度參與「綠惜樹林認養計劃」的 277 位認養人，一同合力建立現時在圓墩郊遊徑旁邊的兩片總面積達一公頃的樹林！

今年五月，我們更舉行了兩場認養人植樹日，當中一場更於母親節舉行，讓親子在這特別的日子一同種下小樹苗。

我們需要您的支持，讓我們得以繼續照料並護理已種下的小樹苗。

Improving local afforestation remains an important part of TGE's work. This year marks our ninth consecutive year of participating in the 'Plantation Enrichment Programme', organised by the Agriculture, Fisheries and Conservation Department. We are grateful for the support of the Hong Kong and China Gas Company Limited, who are helping us with our tree planting and forest maintenance efforts at a new site in Tai Lam Country Park this year.

There was relatively little rainfall during this year's tree planting season. To ensure the seedlings had enough moisture after being planted, we had to provide additional irrigation water for each planting session. We would also like to thank all the participants who prepared a bottle of 'life water' for the young trees, carrying the extra weight to the planting site. Fortunately, the new planting site has a nearby perennial stream that can serve as a water source for the seedlings. This truly adds a sweet touch to our tree planting work!

Last year, with the help of a group of volunteers, we planted a total of 2,600 seedlings across six sites, including the expanded Green Earth Forest. We would also like to thank the 277 participants in this year's 'The Green Earth Charity Woodland' project, who joined forces to establish our two small forests located next to the Yuen Tun Country Trail. These two 'Charity Woodlands' cover a total area of one hectare. In May, we held two tree-planting days for our adopters, one of which fell on Mother's Day, enabling children and families to plant seedlings together.

We still need more support to help us continue caring for and nurturing the planted seedlings!

## 無痕山林教育：「入山隨俗」推廣可持續山徑 Leave No Trace Education – Sustainable Trails

### 第一屆亞洲步道影展

首屆亞洲步道影展於去年九月舉行，由綠惜地球製作的《山中匠人》有幸入圍其中。《[山中匠人](#)》[短片訪問](#)了兩位於漁護署工作數十年的師傅，憶述工作的難忘及滿足之處。透過入圍影展，讓香港的山匠工藝在世界被看見。

### 【香港山徑日 2024】

去年 10 月，綠惜地球在香港山徑日開展了為期三個多月的「[自然步道集章挑戰](#)」，提供六條特色路線資料，吸引逾 1800 人次參與，參加者在享受大自然的同時，認識山徑背後的故事，以及義工曾參與修復山徑的過程。

綠惜地球更與可持續發展工程顧問公司奧雅納（Arup）合力製作《[香港遠足徑手作步道施工案例分享](#)》[小書冊](#)，於山徑日當天發佈，分享專業知識，利用技術為社區和山徑帶來有意義的轉變。

### 【第五期山徑義工培訓】

今年，綠惜地球繼續舉辦「自己山徑自己修」義工培訓計劃，由台灣的導師參與訓練；新加坡的越野單車協會(IMBA)路徑建造專家H.M.老師，為學員分享建造越野單車徑時的經驗；以及日本「北杜山守隊」分享他們於北杜市如何以手作方式維修山徑。我們透過推動山徑保育，連繫著更多有心人，互相學習，一起守護世界各地的郊野。

### Asia Trails Film Festival

The inaugural Asian Trail Film Festival took place in September 2024, and TGE's documentary '[Mountain Artisans](#)' was honoured to be selected for screening! This short film features interviews with two master craftsmen with decades of experience at the Agriculture, Fisheries and Conservation Department, as they recall the unforgettable and fulfilling moments of their work. Through this festival selection, more people worldwide can learn about Hong Kong's trail craftsmanship.

### Hong Kong Trails Day 2024

Last October's Trails Day saw the start of the '[Natural Trail Badge Challenge](#)', which ran for three months and featured six different routes. Participants enjoyed the outdoors whilst learning about the history of the trails. They also learned about volunteer efforts to repair damaged sections of the trails. The event proved extremely popular, attracting over 1,800 participants!

TGE worked with the sustainability consultancy Arup to produce the booklet '[Case Study for Handcrafted Practical Works of Hong Kong Hiking Trails](#)', which was released on Hong Kong Trails Day. This publication shares professional knowledge to help the community and demonstrate how technology can make a meaningful difference to people's lives.

### Fifth Mountain Trail Volunteer Training

In 2025, TGE continued its 'Maintain Your Own Trails' programme, in which volunteers were trained to care for the trails. Alongside our instructors from Taiwan, we were delighted to have H.M., a trail construction expert from the International Mountain Bicycling Association (IMBA) in Singapore, who shared his expertise in constructing mountain bike trails with participants. We also invited the 'Hokuto City Mountain Guard Team' from Japan to discuss how they maintain mountain trails in Hokuto City. By encouraging people to care for mountain trails, TGE connects like-minded individuals who want to protect the countryside and helps them learn from each other.

## 「入山隨俗」無痕山林教育計劃 推廣正確郊野禮儀 Leave No Trace Education – Promoting hiking etiquette

### 「入山隨俗LNT影片系列」三部曲

香港郊野每年吸引千萬計遊覽人次，需要各界人士共同守護值得我們引以為傲的風景。今年，綠惜地球攝製三條分別為印度、菲律賓、英語及廣普雙語的「無痕山林」影片，令更多不同國籍的郊野使用者明白「山野間，只有一種共同語言——『無痕山林』」！

### 無痕山林工作坊

「無痕山林」並不限於遠足露營等常見活動。因此，綠惜地球舉辦不同「無痕山林」體驗活動，包括寫生、遠足攝影、觀賞植物及清除郊野塗鴉活動，讓參加者享受大自然的同時，認識無痕山林的原則，並付諸實行。

### 個案跟進 雞公嶺—最可憐的郊野公園

綠惜地球持續跟進雞公嶺被破壞的個案，雞公嶺過去每年平均發生兩場山火，情況一直未有改善，今年（2025）一月更短時間內發生兩場山火。此外，越野電單車多年來違法闖入的問題，令山嶺進一步被破壞。

山火後，我們聯同行山隊「風火山林」視察雞公嶺的災後情況，並在社交媒體撰文，成功引起媒體關注，《明周文化》於三月以雞公嶺山火為背景撰寫「野火燒不盡」系列報道，令公眾思考持續的山火問題。我們促請當局深入調查起火原因，避免郊野公園無止境地被破壞。

### ‘When in the country, follow the customs’ — LNT video trilogy

Many people visit Hong Kong’s countryside, and protecting it requires everyone’s efforts! That’s why we’ve produced three Leave No Trace (LNT) videos in different languages — Hindi, Tagalog, English and Cantonese/Mandarin — to reach countryside users who speak different languages. The videos demonstrate that, although languages may differ, there’s only one common language in the mountains and forests: Leave No Trace.

### Leave No Trace Workshop

‘Leave No Trace’ applies to more than just common activities like hiking and camping. That’s why we organise a variety of Leave No Trace activities! These include sketching, hiking, photography, plant observation, and graffiti removal. Participants can enjoy diverse outdoor activities while learning and practicing the principles of Leave No Trace.

### Kai Kung Leng: The Most Pitiful Country Park

TGE continues to monitor the ongoing destruction at Kai Kung Leng. The wildfire situation has never been better, with two occurrences on average every year. In January 2025, two more wildfires occurred within a short Period of time. In addition to wildfires, Kai Kung Leng faces persistent illegal motorcycle incursions, which cause further damage to the hillside.

Following the fires, we collaborated with the hiking group Hiking Wind Fire (風火山林) to survey Kai Kung Leng. Our social media post documenting these observations attracted media attention. In March, Mingpao Weekly published a lengthy feature on hill fires, using Kai Kung Leng as a backdrop. This has prompted public reflection on the persistent wildfire issue. TGE is urging the authorities to conduct a thorough investigation into the causes of these fires in order to prevent ongoing destruction of country parks.

## 無痕山林教育：出版兒童繪本獲獎

Leave No Trace Education – Our first award-winning children's picture book

### 《山嶺朋友變了樣？》兒童繪本出版

去年 10 月，適逢香港山徑日，綠惜地球出版了香港首本以本地實例解說「無痕山林」七大原則的兒童繪本，並於香港日本兒童教育專業協會舉辦的第一屆「香港繪本賞」中，從 80 本作品中脫穎而出，獲「香港繪本賞」殊榮。

為惠及更多學童，幫助他們從小認識「無痕山林」，我們除了向學校寄出實體繪本外，亦製作了電子繪本、配以粵語及普通話製成的有聲書，上載於YouTube影音平台；更為繪本創作了主題曲及音樂影片，進一步提高兒童的學習動機。

我們現正準備更多相關教學資源，包括教材及工作紙等，協助教師於教學中融入愛護自然，無痕山林的元素。

### What Happened To Our Mountain Friends?

At the Hong Kong Trails Day event last October, we published our first children's picture book, 'What Happened to Our Mountain Friends?', which uses local examples to explain the seven principles of Leave No Trace. The book won first prize at the inaugural Hong Kong Picture Book Award, organised by the Hong Kong Japan Children's Education Professional Association.

In addition to distributing physical books to primary schools and kindergartens, we created an e-book version, enabling more children to learn about the Leave No Trace principles. We created audiobooks in both Cantonese and Mandarin and uploaded them to YouTube. We also produced an accompanying theme song and music video for the picture book to make learning even more engaging for children.

We are currently developing teaching resources, including lesson plans and worksheets, to help teachers incorporate nature conservation and Leave No Trace principles into their curriculum.

## 無痕山林教育 大型公眾教育活動 Leave No Trace Education – Public Education Event

### 山林密語 – 無痕山林環保展覽

今年六月，綠惜地球舉辦香港首個以推動無痕山林為主題的《山林密語》無痕山林環保展覽圓滿結束。展覽一連六日，我們舉辦近20場工作坊、故事劇場、學校及公眾導賞團，並設立多個展區，讓公眾藉遊戲「玩轉家樂徑」認識無痕山林七大原則、透過「山徑實驗室」向公眾展示山徑問題的成因等。

展覽共吸引約20,000人參觀，大獲社會各界好評。綠惜地球感謝一眾創作者、插畫家、製作單位，以及各支持機構，慷慨借出展品於「無痕山林百子櫃」中展出，同心合力在香港推動「無痕山林」。

展覽既回顧過去成果，同時展望將來，寄語各界一同在香港繼續推動「可持續山徑」及「無痕山林」，守護我們珍貴的郊野。

展覽花絮回顧 Exhibition Highlights  
<https://www.facebook.com/share/v/1JFU2ydzUQ/>

### Mountain Whispers – Leave No Trace Exhibition

In June, TGE successfully organised 'Mountain Whispers – Leave No Trace Exhibition', Hong Kong's first exhibition dedicated to promoting the Leave No Trace principles. During the six-day exhibition, nearly twenty workshops, storytelling sessions and guided tours were held during the exhibition for schools and the public. In the 'Kids' Zone', children learnt the seven principles of Leave No Trace through play. In the 'Trail Lab', visitors observed small experiments demonstrating the causes of trail issues.

The exhibition attracted around 20,000 visitors and received widespread acclaim. TGE would like to thank all the creators, illustrators, and production teams involved. We are also grateful to the generous lenders of exhibits for the 'Leave No Trace Cabinet', which showcased the collective vision for advancing Leave No Trace principles in Hong Kong.

Through this exhibition, TGE reflects on past achievements while looking ahead to the future. Our aim is to continue promoting the 'Sustainable Trail' and 'Leave No Trace' initiatives and to work together to protect our precious countryside!

小義工在活動中教參加者如何進行分類回收。  
Junior volunteers taught participants how to sort and recycle waste materials during the event.

## 推動綠惜盛事：綠惜盛事認證計劃

### Driving Sustainable Green Event: The Green Events Certification Scheme

#### 綠惜活動減廢同行計劃

過往一年，綠惜地球繼續協助不同規模和類型的活動履行環境責任。我們與超過 10 個活動主辦機構合作，包括香港街馬2024、香港迪士尼樂園 10K Weekend 及東華三院奔向共融 – 香港賽馬會特殊馬拉松。

在各類盛事活動中，我們成功回收超過 22,000 個膠樽、4,500 個鋁罐，和其他不同類型的可回收物；並向 54,000 位盛事參加者推廣「綠惜盛事」理念，提高他們對減廢的意識，並在活動中實踐。

#### Events Go Green

Over the past year, TGE continued to assist events of various scales and types in fulfilling their environmental responsibilities. We collaborated with over 10 event organizers, including the Kerry Hong Kong Streetathon 2024, the Hong Kong Disneyland 10K Weekend, and the TWGHs iRun – The Hong Kong Jockey Club Special Marathon.

Through these events, we successfully recycled more than 22,000 plastic bottles, 4,500 aluminum cans, and various other types of recyclables. Additionally, we engaged over 54,000 participants, promoting the 'Events Go Green' concept to raise awareness of waste reduction and encourage sustainable practices during events.

透過推行回收教育，成功與參加者合力拯救大量回收物。  
Through recycling education, we successfully engaged participants in diverting substantial quantities of materials from waste streams.

[Events Go Green](#)

SGS 審核員對展覽進行現場檢查。  
SGS auditor onsite inspection of the exhibition

## 原則2 在適當地點進行活動

### 任務2 - 「活動」 「地點」 對對碰

玩法：  
• 請將不同的「郊野活動」配對出合適的「地點」  
• 學習在適當地點進行恰當的郊野活動

提示：試找出相同的顏色邊框，配對出正確答案

在正確的地點進行恰當的郊野活動，除能保障遊人安全，更能保護環境，減低對環境的影響！

### 綠惜盛事認證計劃

近年公眾對可持續發展的認識加深，促使更多活動主辦機構採取並實行各種環保措施。

有見及此，綠惜地球於去年推出「綠惜盛事認證計劃」，表彰並認證承諾並實踐可持續發展及環保措施的活動。整個認證過程將由我們的技術夥伴－國際認證機構 SGS 進行全面審核，以確保活動符合高標準的環境管理準則。

2025年9月，我們將於 ReThink 舉辦首個認證嘉許典禮，這不僅是對所有參與者努力的肯定，亦是計劃推出一年的里程碑。

### Green Events Certification Scheme

In recent years, growing public awareness of sustainability has prompted more event organisers to adopt and implement various green practices.

In response, we proudly launched our Green Events Certification Scheme last year to recognise and certify events that demonstrate a strong commitment to sustainable and environmentally responsible practices. The entire certification process is conducted through a rigorous audit by our technical partner, SGS, an international certification body, to ensure that participating events meet high standards of environmental management.

In September 2025, we hosted our first recognition ceremony at ReThink HK. This event marked not only a milestone for the scheme but also a celebration of the dedication and efforts of all participants.

主辦單位: 綠惜地球 THE GREEN EARTH 技術夥伴: SGS

## 環保教育的推動與實踐

### Putting Environmental Education into Action

#### 學校及公眾環保教育工作坊

綠惜地球設計的環保教育工作坊及講座不僅適合學校，部分更為親子活動，讓不同年齡層的市民都能參與其中。

過去一年，我們共舉辦了90場工作坊和講座，吸引了近6,000名參加者，對象包括幼稚園、高等院校、社會服務團體及公眾。活動內容涵蓋減廢、低碳生活、節能、氣候變化及自然保育等重要環境議題，致力提高公眾的綠色公民意識。

我們的講座主題多元，包括「氣候變化與低碳生活」、「塑膠七兄弟」及「我的綠惜生活」等熱門議題，深入探討極端天氣與廢物問題對人類及環境的影響，並引導參加者思考應對方法。

前香港天文台助理台長梁榮武教授與學生對談，  
分享對氣候變化及碳中和的見解。

Former Assistant Director of The Hong Kong Observatory,  
Professor Leung Wing Mo, shared topics on climate change  
and carbon neutrality with students.

我們的到校講座旨在提升下一代的環保意識。

We conduct seminars in schools to enhance the environmental  
awareness of the next generation.

按此認識更多：

[學校及公眾環保教育工作坊](#)

#### School and Community Green Education Programme

Our environmental education workshops and lectures cater to schools and parent-child activities alike, enabling people of all ages to participate. Last year, we organised 90 events, attracting nearly 6,000 participants from kindergartens, higher education institutions, social service organisations, and the general public. Our activities covered a wide range of environmental topics, including waste reduction, low-carbon living, energy conservation, climate change and nature conservation. All of these topics are aimed at building foundational awareness for green citizenship.

In response to needs from the community, we offer lectures, including various themes like 'Climate Change and Low-Carbon Living', 'The Plastic Seven', and 'My Eco-Friendly Life'. These demonstrate how extreme weather and waste issues impact both humankind and the environment, encouraging participants to consider ways to address the challenges.

[School and Community  
Green Education Program](#)

綠惜地球受邀到大專院校進行培訓，與學生、社團職員分享實踐綠惜活動的具體方法。

TGE was invited to higher education institutions delivering Green Events training to the office-bearers of the student organisations.

## 創新環保工作坊，以互動方式推動環境教育

我們持續設計新工作坊，透過生動有趣的方式，向公眾講解香港的環境問題，並提出可行的解決方案：

### 《星際聯盟回收大作戰：100+ 日常廢物處理攻略》

這款最新推出的工作坊，以互動形式結合遊戲卡進行，提供處理生活中常見的100多種日常廢物的方法，包括膠樽、鋁罐、廢紙以至魚缸、牙刷、洗衣液樽及USB線等。透過深入淺出的遊戲，讓參加者輕鬆掌握回收技巧，獲得多位老師讚賞及參加者一致好評。

### Innovative Environmental Workshops

Promoting Environmental Education Through Interactive Engagement

We continually develop new workshops that explain Hong Kong's environmental issues and practical solutions in an engaging and accessible way.

### Universal Recycling Rangers : How to Handle My 100+ Items of Daily Waste

Our latest workshop combines interactive activities with game cards, offering an hour-long, hands-on experience. Participants learn how to handle over 100 types of common household waste, including plastic bottles, aluminium cans, waste paper, aquariums, toothbrushes, laundry detergent bottles, and USB cables. Through this fun and easy-to-understand game, participants quickly grasp recycling techniques. The workshop has received high praise from teachers and overwhelmingly positive feedback from attendees.

全新推出的《星際聯盟回收大作戰：100+日常廢物處理攻略》，以互動形式結合遊戲卡，教導處理生活中常見廢物的回收方法。

The newly established workshop 'Universal Recycling Rangers : How to Handle My 100+ Items of Daily Waste' combines interactive games with game cards to provide practical methods for managing common daily waste items.

活動受不同學校老師及學生的喜愛，投入參與。

This activity was well-received by teachers and students from various schools, who actively participated.

## 木送放映會

### 珍惜木材資源，思考城市與鄉村的未來

綠惜地球一直珍惜樹木與木材資源。我們特別安排包場放映一部關於本地環保舊木工匠「志記鋸木廠」的紀錄片《木送》，並邀請導演韓潔瑤出席分享。透過活動，我們期望與公眾一同思考：在城市發展的洪流下，鄉村工業、土地上的人與資源，何去何從？而我們又如何在這片土自處，貢獻香港的環境保育？

## Fallen Treasures — Screening

### Valuing Timber Resources and Reflecting on the Future of Cities and Villages

TGE has always valued trees and timber resources. Through a private screening of 'Fallen Treasures', a documentary about a local wood craftsman from Chi Kee Sawmill & Timber, we invited the director, Elyse Hon, to share her insights and prompt public reflection on a series of questions: Amidst the sweeping tide of urban development, what future awaits rural industries, the people rooted to the land, and their resources? How can we take meaningful action to protect our environment?

紀錄片《木送》啟發觀眾思考城市與鄉村的未來  
The documentary 'Fallen Treasures' inspired public reflection on the future of cities and rural areas

## 《木送》紀錄片放映

簡介：導演韓潔瑤歷時五年，深入拍攝香港碩果僅存的志記鋸木廠的故事。

主辦：綠惜地球  
2025年4月2日(三) 7:30PM  
油麻地百老匯電影中心

## 《山嶺朋友變了樣？》繪本故事工作坊

配合本年度出版《山嶺朋友變了樣？》繪本，我們與香港專業教育學院（沙田）IVE CECS 幼兒、長者及社會服務系攜手合作，培訓該系 90 多位同學成為「自然繪本大使」，並於多間小學、幼稚園、公眾場合舉辦超過 30 場繪本工作坊。

透過故事工作坊，以實例解說「無痕山林」七大原則，深入淺出向兒童介紹郊野環境問題，並讓學童加深對香港自然的認識、培養愛護大自然的心、學習正確的無痕山林原則。

工作坊已於多間小學、中學、大專院校及企業機構舉行，廣受歡迎。

綠惜地球不同的環保教育講座及工作坊深受各方愛戴，我們期望愛護環境，珍惜資源的信念茁壯成長。

### What Happened to Our Mountain Friends? — Picture Book Story Workshop

In collaboration with the Childcare, Elderly and Community Services Discipline at the Hong Kong Institute of Vocational Education (IVE) in Sha Tin, we trained over 90 students to become 'Nature Picture Book Ambassadors'. These ambassadors then visited primary schools, kindergartens and public running over 30 picture book workshops with us.

The workshop introduced children to environmental issues in the countryside in an easy-to-understand way with practical examples to show the seven principles. The workshops also taught students about Hong Kong's natural resources, encouraging them to love nature as well as the Leave No Trace principle.

The workshops were held in many primary, secondary and tertiary schools, as well as corporations. The environmental education lectures and workshops were well-received.

We hope that TGE's message of environmental stewardship and resource conservation will spread even further.

香港首本以實例解說「無痕山林」的兒童繪本走入校園，讓孩童從小培養愛護自然的態度。  
Bringing 'Leave No Trace' into schools, nurturing love and respect for nature from an early age.

與學生走出課室，到外清潔海灘，以行動實踐愛護環境。  
Practise environmental protection through clean-up actions.

**大學生：**撿到很多微小的發泡膠粒，尤其各種垃圾如打火機餐具都有，令我感歎人類對大自然的不負責任的破壞，很失望。  
**University Student:** I collected numerous polystyrene pellets and other rubbish like lighters and cutlery. Seeing this waste made me feel sad about people destroying the natural world. It was really disappointing.

**中學老師（一）：**多謝你們讓學生有機會親身了解世界正面對緊的環境問題，如果日後有相似的環保活動，請隨時聯絡我，我會帶學生一起參加，令他們養成關注環境的心態，一起推動環保工作。

**Secondary School Teacher (1):** Thank you for enabling our students to learn about the environmental problems in our world. If you have any similar projects in the future, please get in touch. I will bring my students and learn more about the environment. Let's work together to protect the environment.

**中學老師（二）：**活動很有創意，與回收知識緊扣，且很有impact，如「知道都市固體廢物人均棄置量為每日 1.44 公斤」。能實體參與真的太好了~

**Secondary School Teacher (2):** The creative and impactful activity was closely tied to recycling knowledge — such as the fact that 'the average person in the city discards 1.44 kilograms of solid waste daily'. It was truly wonderful to participate in person.

**小學老師：**每part遊戲都好精彩  
**Primary School Teacher:** Every part of the games was brilliant.

## 綠惜企業同行 Corporate Engagement

### 綠惜地球第一屆《減廢約章》

#### The Green Earth (TGE)'s First Waste Reduction Pledge

垃圾收費延遲實施，香港仍面對嚴峻的廢物危機。綠惜地球啟動第一屆《減廢約章》，匯聚致力達成減廢目標的企業及機構，以表揚各界對減廢的承諾。約章內容包括教育持份者認識香港正面臨的廢物挑戰、培訓員工作出減廢行動和學習正確的回收方法；並分享減廢的專業知識。

「我們冀望能鼓勵更多人加入，一同身體力行。只要我們積極落實可持續發展理念，必成為香港可持續未來的重要基石。」  
—綠惜地球創辦人 劉祉鋒

綠惜地球衷心感謝參與和簽署《減廢約章》的機構及企業。

Despite the postponement of the municipal solid waste charging scheme, Hong Kong continues to face a severe waste crisis. In response, The Green Earth launched the first Waste Reduction Pledge, bringing together businesses and organisations committed to reducing waste.

The pledge recognises and supports these parties for their commitment to educating stakeholders about Hong Kong's waste challenges, training employees to take action on waste reduction, learning proper recycling methods, and sharing professional knowledge on waste minimisation.

"We aim to inspire others to join us and take action together. By actively implementing sustainable practices, we lay the foundation for Hong Kong to move towards a more sustainable future."

—Edwin Lau, Founder of TGE

Our heartfelt gratitude to the businesses and organisations that have participated in and signed the Waste Reduction Pledge.

## 綠惜同行，遺善最樂

Grow a Legacy, Sustain the Planet.

### 綠惜同行，遺善最樂

人生如果是一趟旅程，你希望在離開後，為這個世界留下甚麼？

綠惜地球與推動遺產捐贈文化的社企「遺善最樂」攜手合辦的「平安三寶」講座圓滿舉行，超過 80 位市民踴躍參與，了解如何遺愛人間。

遺善最樂共同創辦人黎曉洋律師協助善心人在臨終前，將部分遺產捐贈予屬意的慈善機構。她在講座深入淺出講解「平安三寶」，包括遺囑（平安紙）、持久授權書和預設醫療指示，並分享許多傳承善意，遺愛人間的故事。

了解更多：<https://www.forevergift.hk/greeneearth>

### A Forever Gift for TGE

If life is a journey, what legacy do you want to leave behind?

TGE, in collaboration with the social enterprise Forever Gift, which promotes legacy donation culture, successfully hosted the “Three Instruments of Peace” seminar, attracting over 80 participants eager to learn how to pay love forward.

Ryanne Lai, lawyer and Co-Founder of Forever Gift, helps kind-hearted individuals arrange legacy donations to their chosen charitable organisations. During the seminar, she explained the ‘Three Instruments of Peace’ in an accessible and engaging way: Will (Peace Paper), Enduring Power of Attorney, and Advance Medical Directive. She also shared touching stories of how people passed on their love and values to the world.

Paying Love Forward: <https://www.forevergift.hk/greeneearth-eng>

綠惜地球創辦人劉祉鋒先生（右）分享他推動環保超過 30 年的經歷，希望讓下一代享有可持續的環境。

Edwin Lau, Founder of TGE, drew from his 30-plus years of environmental advocacy to inspire attendees to create a sustainable future for new generations.

## 捐款支持

### Donate to Support

綠惜地球是本地慈善環保團體。我們是自負盈虧並無政府資助，全賴向公眾募款以支持綠惜工作。

The Green Earth (TGE) is a local charitable environmental organisation that receives no government subvention and relies entirely on public donations to fund our green initiatives.

### 捐款方式 Donation Methods

誠邀您以[月捐](#)或[單次捐款](#)方式支持我們。

Support us by making a [monthly](#) or [one-off donation](#).

#### 轉數快 Fast Payment System (FPS)

ID: 3555646

#### PayMe

# 綠惜夥伴給我們的話

## Words from Our Green Partners

綠惜地球感謝義工和合作夥伴熱情參與，並肩減廢同行。

The Green Earth (TGE) appreciates the enthusiastic participation of our volunteers and partners in walking together towards waste reduction.

衷心感謝綠惜地球的支持者，願意透過遺產捐贈來傳遞對環境保護的深切關懷。這份心意與具體行動不僅守護了他們所愛惜的環境與人事，更為未來播下關懷的「綠惜」種子，為下一代留下深遠及正面的影響。

I sincerely thank the supporters of TGE who are willing to convey their deep concern for environmental protection through legacy donations. This intention and concrete action not only protect the environment and matters they cherish, but also prepare for the future, sowing the caring seeds of "green cherish" and leaving a profound and positive impact for our next generation.

**黎曉洋律師**

**Ryanne Lai**

「遺善最樂」共同創辦人

Co-Founder of ForeverGift.hk

感謝綠惜地球與我們就着生產者責任計劃進行交流，讓清潔工友了解更多。對比生產者責任，也許家居回收以及善用街道上的「三色桶」看似微不足道；然而，當每個人都邁出微小一步，對清潔工友們沉重的工作量卻能帶來立竿見影的改變。莫以善小而不為。

We would like to thank TGE for engaging with us on Producer Responsibility Schemes, helping our cleaners to gain a deeper understanding. Compared to the responsibility of producers, household recycling and the proper use of the "three-colour bins" on the streets may seem insignificant. However, when everyone takes a small step, it can make a tangible and immediate difference in reducing the heavy workload of cleaners. No good deed is too small to matter.

**黃迺元**

**Joe Wong**

清潔服務業職工會會長

Cleaning Service  
Industry Workers Union

衷心欣賞綠惜地球對拾荒者在社區回收貢獻的認同與肯定，並攜手探討垃圾徵費、生產者責任制及綠綠賞電子化等議題。不僅提升了街坊的環保意識，更為拾荒者發聲。期望日後能繼續攜手合作，共同推動環保工作！

We sincerely appreciate TGE's recognition of the invaluable contributions of scavengers to community recycling. Together, we have explored topics such as waste charging, producer responsibility, and the digitalization of Green\$. These efforts not only enhance environmental awareness among local residents but also amplify the voices of scavengers. We look forward to continuing our collaboration to further advance environmental initiatives in the future!

地球生病了，誰之過？

人類與大自然的關係是息息相關，環環相扣。如今，環境污染與生態退化日趨嚴重，我們保護環境是責無旁貸。我十分敬佩綠惜地球不遺餘力，鏗而不捨推行環保的精神。綠惜地球不僅鼓勵大家身體力行實踐環保，還定期到學校和不同機構推廣環保教育，深入人心，讓大家的環保意識提升不少。

The Earth is sick—who's to blame?

The relationship between humans and nature is deeply interconnected. Today, environmental pollution and ecological degradation are worsening at an alarming rate, and protecting the environment has become our moral responsibility. I greatly admire TGE's tireless and persistent efforts in promoting environmental protection. Beyond encouraging individuals to practice environmentalism, they regularly visit schools and various institutions to promote environmental education, reaching communities at their core and significantly raising environmental awareness.

榮幸可以參與綠惜地球舉辦的「自己山徑自己修義工培訓計劃」及「無痕山林種子導師培訓計劃」。我們起初學習維護山徑及實踐手作步道的維修方法。後來在親身參與維修的過程中，讓我更能感受每塊石頭與木材和我們的連結。如果我們不改變一些使用山徑的壞習慣，即使修得再密再美，終會再次耗損。

作為幼兒教育工作者，藉綠惜地球新推出繪本故事《山嶺朋友變了樣》，令我在課堂上可用有趣的手法與香港未來山徑的用戶解說香港山徑面對的問題，又學會如何正確使用山徑，從而愛護香港的山林。小朋友再由他們口中分享無痕山林的價值觀予爸爸媽媽及身邊的朋友，感覺更有意義和價值。

謝謝綠惜地球和義工們一起並肩同行，  
希望大家繼續愛護和珍惜我們美麗的香港！

**Sophie**

「自己山徑自己修」義工  
Trail Repairing Volunteer

I'm honored to have participated in TGE's "Trail Repairing Volunteer Squad" and "Leave No Trace Level 1 Instructor Course". We learned about trail maintenance and practiced handcrafted trail repair techniques. Later, during the hands-on repair process, I developed a deeper appreciation for the connection between every stone, piece of wood, and ourselves. However, if we do not change certain harmful habits when using trails, no matter how carefully or beautifully they are repaired, they will inevitably deteriorate again.

As an early childhood educator, TGE's new picture book – What Happened to Our Mountain Friends? – has given me an engaging tool to teach future trail users about the challenges Hong Kong's trails face. Through the story, children learn how to use trails correctly and care for Hong Kong's forests. They then share the values of Leave No Trace with their parents and friends, making the experience even more meaningful and valuable.

Thank you to TGE and the volunteers for walking this journey together. I hope we can all continue to love and cherish our beautiful Hong Kong!

**李秀芬**

**Lee Sau Fan**

點滴是生命 營運總監  
Operation Director  
of A Drop of Life

自2017年起，我們開始與綠惜地球緊密合作，為我們的年度籌款活動「滴水一戰」及「點滴滴水行」提供綠惜教育及回收服務。

於活動推行回收充滿挑戰性，要於不同地點設置檢查站及回收站，活動完結後又需運送回集收點進行分類，加上天氣上的挑戰，往往會增加回收難度。全賴綠惜地球、活動義工、參加者及物流伙伴，合眾人之力才能讓每次的回收及分類順利完成。因此，推行綠色活動，不僅僅是招牌上的美化工程，更是很好的教育橋樑，讓不同持份者透過活動去實踐綠色理念，慢慢成為習慣。

今年，我們很榮幸獲邀參與「綠色盛事認證計劃」，透過申請過程，我們對策劃活動時可實踐的綠色措施有了更清晰及具體的了解，同時亦可讓活動朝著可持續發展的方向繼續邁進，為環境保護出一分力。

我們期待繼續與綠惜地球及各綠色伙伴攜手合作，無懼挑戰，打造更多綠色活動。

Since 2017, we've been working closely with TGE to provide Green Earth education and recycling services for our annual fundraising events, "Race for Water" and "Walk for Water."

Recycling at events can be challenging. Checkpoints and recycling stations have to be set up at various locations. After the event, the recyclables must be transported back to the collection points for sorting. Weather conditions often compound the challenges. But TGE, event volunteers, participants, and logistics partners have made recycling and sorting a success every time. Promoting green events is not just about enhancing the event's image—it's a meaningful educational platform that enables stakeholders to practice green concepts during the event and gradually turn them into lasting habits.

This year, we were honored to take part in the Green Events Certification Scheme. Through the application process, we gained a clearer and more concrete understanding of the green measures we can implement when planning our events. This allows us to further advance our activities towards sustainability and environmental protection.

We look forward to continuing our collaboration with TGE and other green partners to overcome challenges and create more impactful green events.

# 鳴謝

## Acknowledgments

感謝各位在過去一年支持綠惜地球，我們才能穩步前行和成長。期待未來有您繼續參與。

We would like to express our warmest gratitude to individuals and organisations who have supported us and enabled The Green Earth to grow steadily. We look forward to continuing our engagement with you.
